

love your garden

Company Profile

love your garden

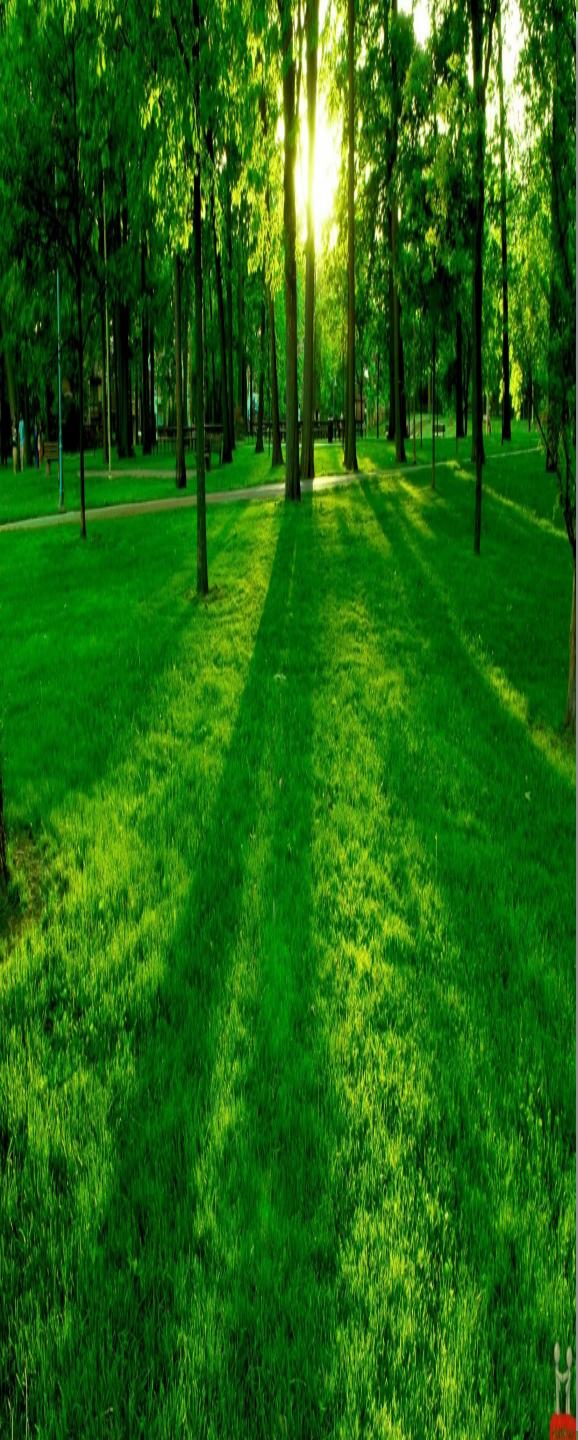

The ownership of Eden Garden bring with it a wealth of experience that extends over a period of 14 years in the industry.

Being the pioneers of irrigation and landscaping in the UAE, the owners have played a vital role in the commitment to construct world class gardens assured all its client a total quality service.

Customer-tailored services offered by a well trained team, comprising of landscape architects; design engineers; project engineers; supervisor; and skilled workers, to suit the varying requirement from private clients; municipalities, palaces to hotels and government bodies, with optimum outcomes.

Eden Garden is the new venture aimed at bringing this experience to the consumers of the UAE.

Eden Gardens works with a philosophy that the quality of outdoor spaces directly influence our lives. Context and sustainability are key considerations of our processes and designs. We are passionate, driven, and unwilling to compromise on quality.

Eden Gardens through employing a specialised team of landscape architects, horticulturists, irrigation engineers, and skilled workers, aim to bring exceptionally designed and built outdoor areas.

Offering quality landscaped garden/outdoor area, combinations of hard landscaped outdoor seating areas, water features, swimming pools ,plant areas, following contemporary design elements.

Eden Gardens commitment to provide cutting edge design and expert installation of quality gardens assure clients exceptional satisfaction.

The aim is to also provide, through a number of retail outlets that provide high quality plants, landscape and irrigation products at an affordable price to the consumers of the UAE, including unique products that have sustainable offerings.

Sustainability and the use of “green” products are at the core of Eden Gardens philosophy.

LANDSCAPE DEVELOPMENT

Well designed landscapes complement the home's architecture and design, giving the home a story that can be read inside and out. By carrying your design style outdoors, you can turn a patio, deck, or even a balcony into another room of the house. With a reputation for the finest quality of service available, Oasis Dreams is equipped to provide construction, civil and MEP solutions for hardscape projects.

Construction

is executed with the application of modern equipment, technical expertise and use of the right resources. Covering the spectrum of landscape engineering, Oasis Dreams provides services such as land surveying, planning, designing and structural development of communal, municipal, general commercial and leisure areas. We always work hard to satisfy our customers and live up to their expectations, likewise we endeavor to make sure that

our principals are also happy in the way their services are being marketed and sold throughout the area.

EDEN GARDENS

EARTH WORKS

Earthworks means modification of land surfaces by blading, contouring, ripping, moving, removing, placing or replacing soil or earth, or by excavation, or by cutting or filling operations, including the importation of fill (see definition of clean fill, Zone, earthworks exclude the cultivation of land and the digging of holes for the erection of posts or the planting of trees, landscaped area and gardens. Earthworks - "earth-moving operations carried out by any means for development purposes and includes: -

- (a) Site Clearance;*
- (b) The disturbance of land surfaces by moving, removing, placing or replacing soil, or by excavation or cutting and filling operations;*
- (c) contouring;*
- (d) Road, driveway, and access construction." (ACC Operative Isthmus District Plan).*

EDEN GARDENS

HARDSCAPE WORKS

*"Hardscape" consists of the inanimate elements of landscaping, especially any [masonry](#) work or woodwork. It is one of the two major subcategories of landscaping, the other being [softscape](#). In particular, as the name implies, "hardscape" refers to **hard** materials such as those composed of:*

- *Concrete*
- *Brick*
- *Stone*
- *Wood (even though wood was **once** animate)*
- *Metal*

IRRIGATION WORKS

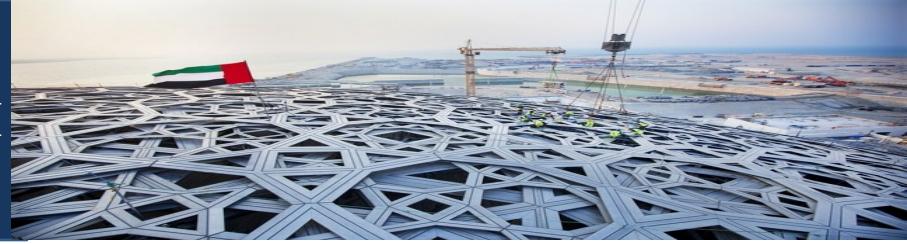

Irrigation is the method in which water is supplied to plants at regular intervals for agriculture . It is used to assist in the growing of agricultural crops, maintenance of landscapes, and revegetation of disturbed soils in dry areas and during periods of inadequate rainfall.

We deal in design, Supply, Installation, Operation and Maintenance of automated Irrigation Systems.

EDEN GARDENS

LOUVRE PROJECT, ABU DHABI

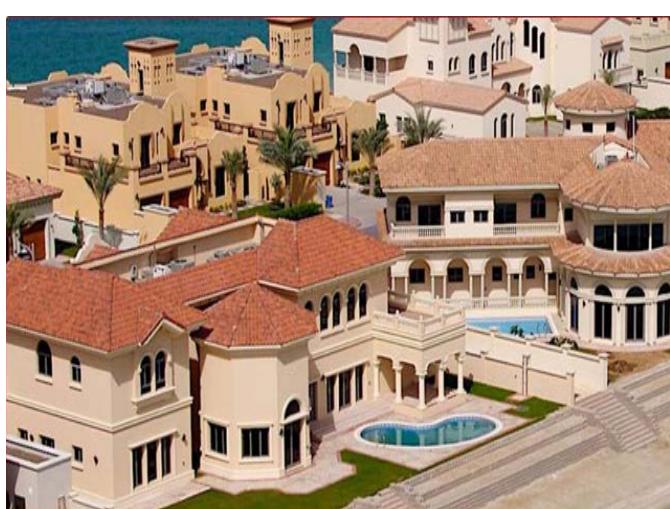

The Louvre Abu Dhabi is a Universal Museum designed by Pritzker Prize winning Architect Jean Nouvel and will consist of Permanent and Temporary galleries, a Children Museum, associated storage and conservation areas, administration areas and food and beverage outlets.

It is located on Sadiyat Island, Just 500 metres off the coast of Abu Dhabi, Sadiyat is undergoing a remarkable transformation. This unique place will offer an entirely unique invitation to the discerning traveler. The Louvre Abu Dhabi is part of a thirty year agreement between the city of Abu Dhabi and the French government. The museum is to be located on the Sadiyat Island complex.

NURSERIES & GREEN HOUSES

We design, Supply, Install nurseries and green houses as per your requirements, using good quality material to the industry standards.

EDEN GARDENS

What is Vasso?

In case of irregular watering, plants will fade and then die in time. This often happens when people leave their plants behind at their homes or offices when taking a vacation and this causes many people to give up their lovely plants. Both under watering and over watering can have negative results for plants. Over watering can not only cause the floors to become dirty but also cause plants who don't like too much water to wilt.

Vasso Clever Pot is especially designed to resolve all these problems and makes plant growing much more easier.

Growing plant will be easier for everyone using the Vasso Clever Pot.

WATER FEATURES FOUNTAINS

Adding water features to your space is one of the best ways to enhance the beauty and character of your outdoors. No matter whether you incorporate them in your patio, garden or deck, it will have a wonderful and inspiring effect on the visitors. Water fountains are too not much different from them, as they also have a very soothing effect. Furthermore, they are used to create a focal point and lure wildlife that you have never seen at your place earlier.

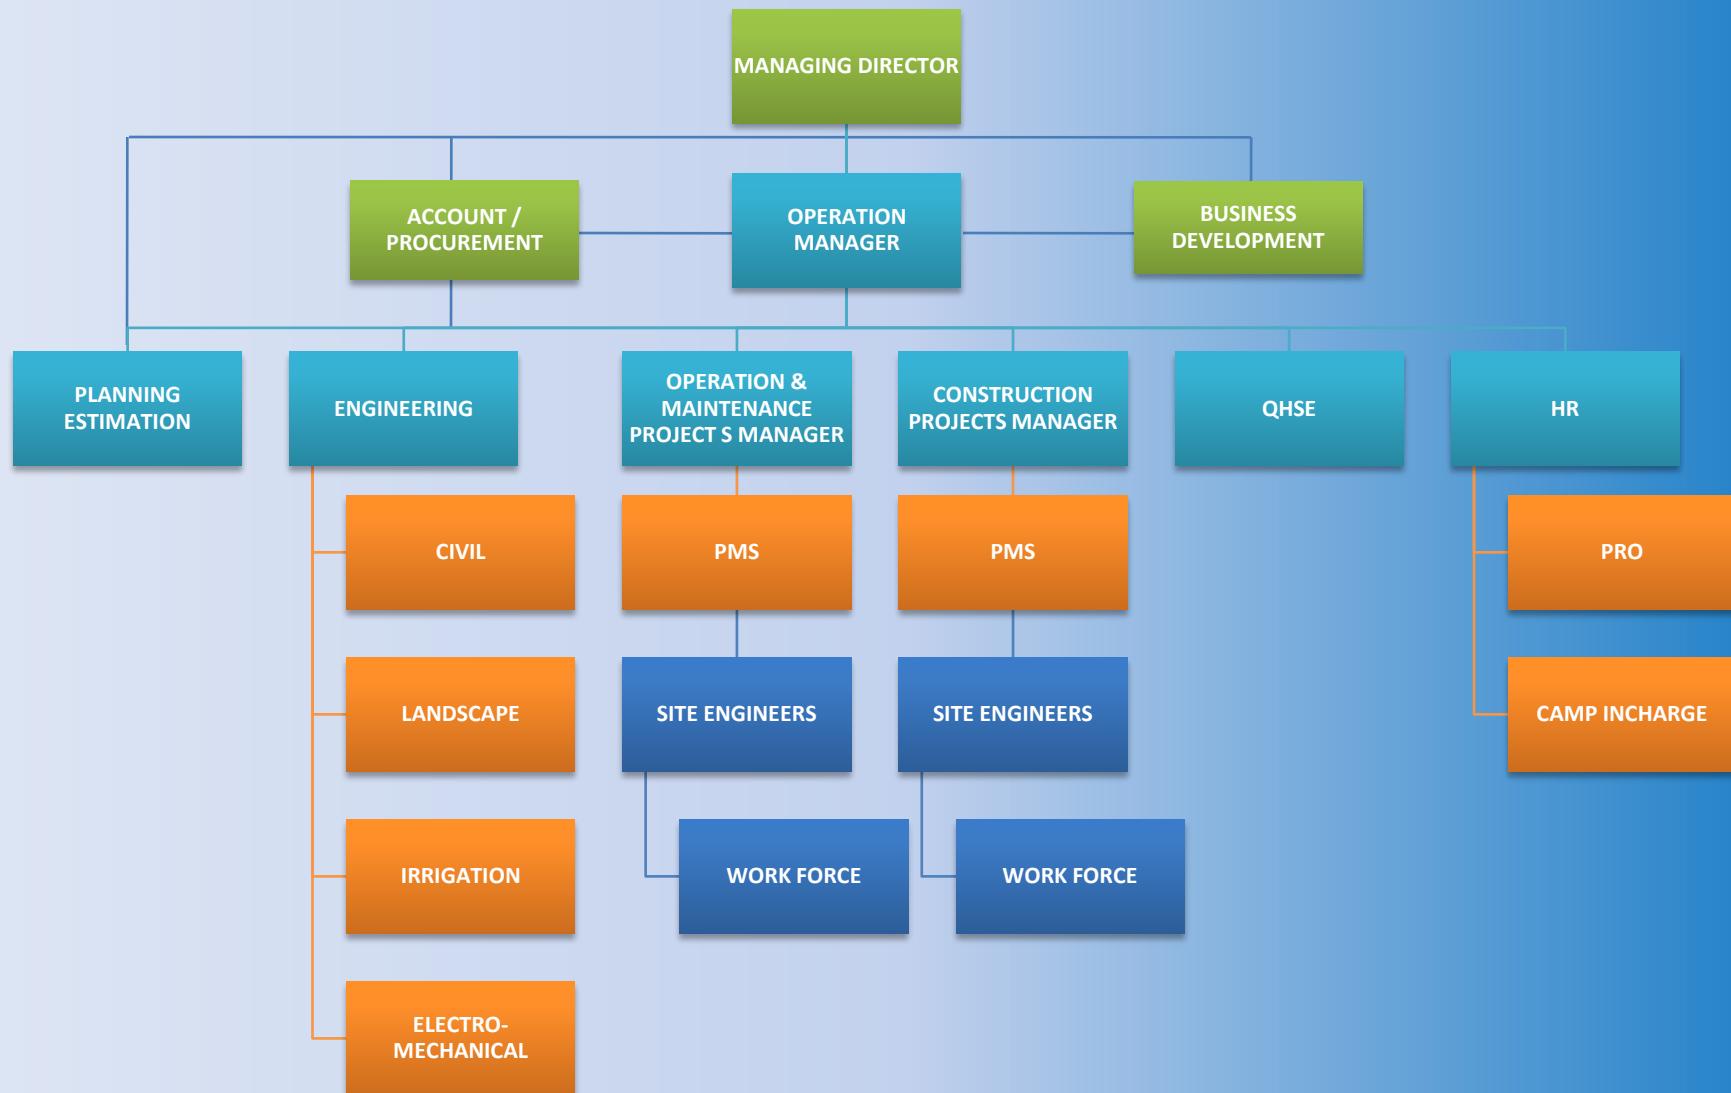

TYPES OF WATER FOUNTAINS:

- *Floating*
- *Decorative*
- *Sequenced*
- *Cascades & Waterfalls*
- *Rills & Channels*
